

ChatGPT Content Generator

Compatibility

PrestaShop 1.7.5 – 1.7.8

Goal

Module GENERATES unique SEO-optimized descriptions for products and text content for categories or pages using ChatGPT AI. It can REWRITE texts to make them unique and TRANSLATE. Bulk mode and custom request templates to ChatGPT are allowed.

Benefits for Merchants

- You **don't pay** for using ChatGPT additionally!
- Fast text **content generation** for products, categories or pages using ChatGPT AI
- **Generate products** description and characteristics **based on EAN**
- **SEO optimization** due to original texts by using ChatGPT AI
- Function of **translating** already generated text into other languages (for the multilingual site)
- **Rewrite your texts** functionality to make them unique
- **Statistics of used words limits** for content generated by ChatGPT AI
- Automatic generation of requests based on your **custom request templates**
- **Custom request templates** constructor
- **Bulk mode** is supported

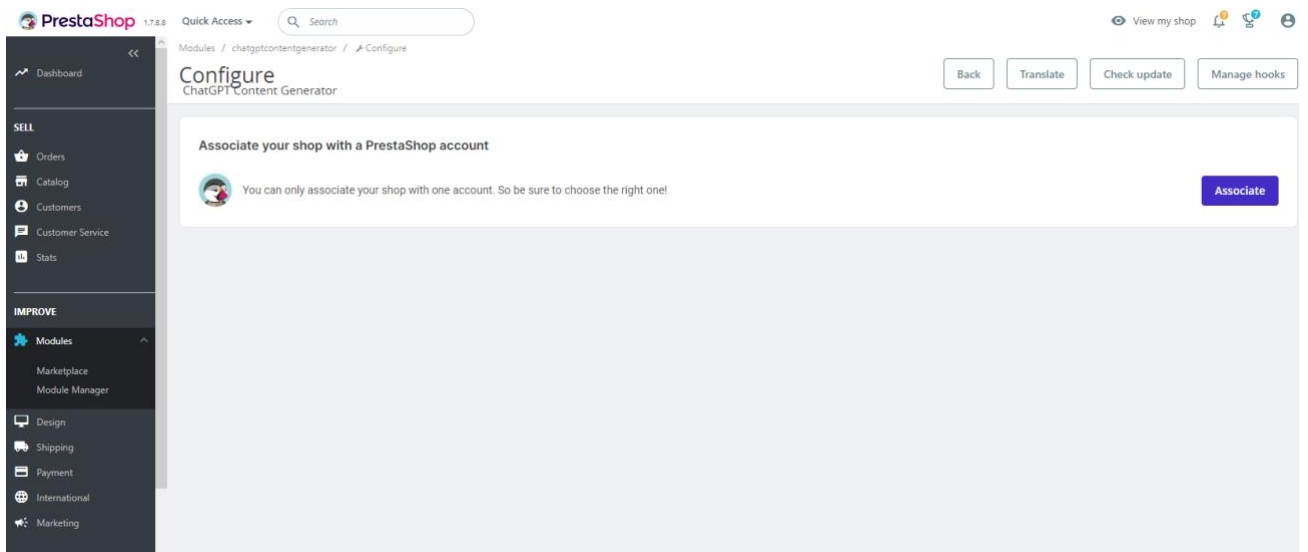

Benefits for customers

- Site visitors will see complete product descriptions with high-quality text
- Categories will have unique descriptions
- CMS pages will consist of an original text with extended descriptions, etc

Features

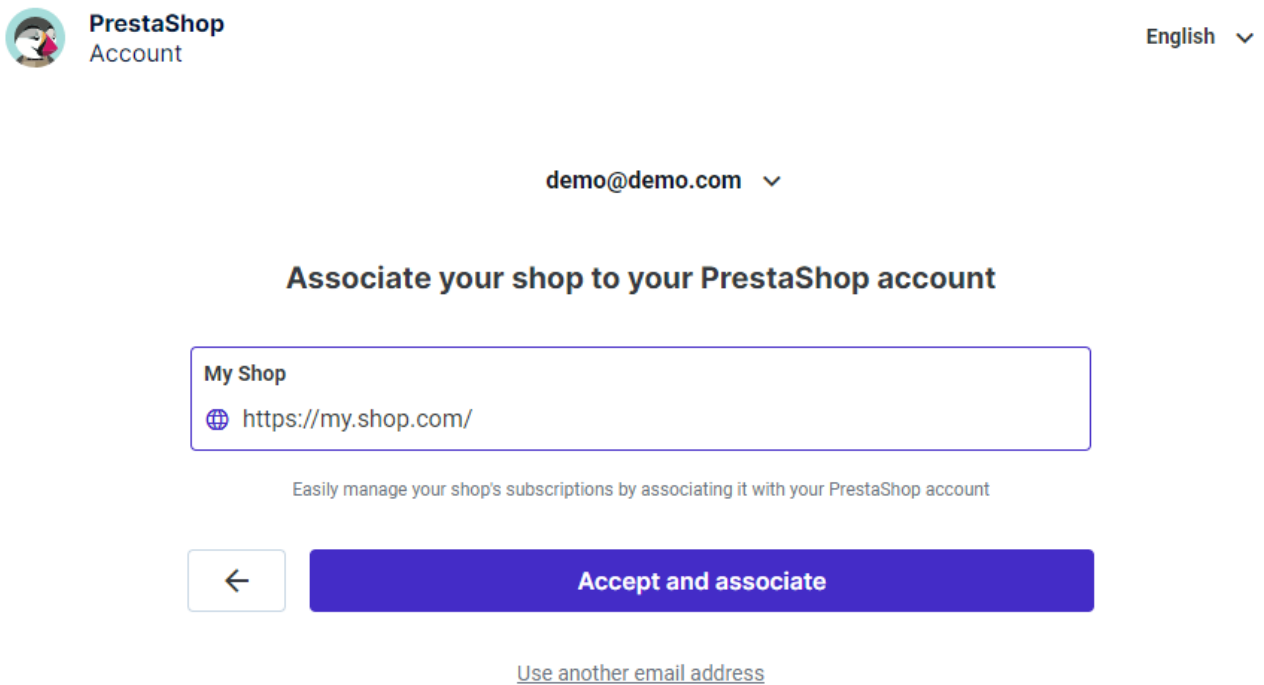

- **Multilanguage** compatibility
- **Custom templates constructor** for getting the individual results from ChatGPT
- **Content generating** for products and categories in **single or bulk mode**
- **Rewriting texts** in single or bulk mode
- Functionality for generating a list of **product characteristics based on EAN**
- **Adding or replacing** an existing description of a product or category
- **Bulk translation** options
 - Ability to choose the initial language from which the translation will be generated from
 - The possibility of choosing several languages into which the text will be translated
- Compatibility with the **Multishop function**

Account connection

The screenshot shows the PrestaShop administration interface. The top navigation bar includes the PrestaShop logo, version 1.7.8.8, a search bar, and utility links like 'View my shop'. The left sidebar contains a menu with categories 'SELL' (Orders, Catalog, Customers, Customer Service, Stats) and 'IMPROVE' (Modules, Marketplace, Module Manager, Design, Shipping, Payment, International, Marketing). The main content area is titled 'Configure ChatGPT Content Generator' and features a message: 'Associate your shop with a PrestaShop account. You can only associate your shop with one account. So be sure to choose the right one!' with an 'Associate' button. Action buttons for 'Back', 'Translate', 'Check update', and 'Manage hooks' are visible at the top right.

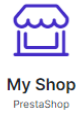

In order to start working with the module, you need to link it to your personal account registered on **Prestashop Addons** <https://addons.prestashop.com>
The "**Associate**" button opens a window where you need to log in and confirm the store's connection with your account.

The screenshot shows the 'PrestaShop Account' connection window. It features the PrestaShop logo and 'Account' text on the left, and a language selector set to 'English' on the right. The email address 'demo@demo.com' is displayed with a dropdown arrow. The main heading is 'Associate your shop to your PrestaShop account'. Below this is a form field labeled 'My Shop' containing a globe icon and the URL 'https://my.shop.com/'. A descriptive text reads: 'Easily manage your shop's subscriptions by associating it with your PrestaShop account'. At the bottom, there is a back arrow button and a large blue button labeled 'Accept and associate'. A link for 'Use another email address' is located below the main button.

You need to confirm access to the store data after connecting to the account and click the "**Accept and associate**" button to do this.

Share your data with ChatGPT Content Generator

This table displays usage statistics and tariff plan limits

Templates

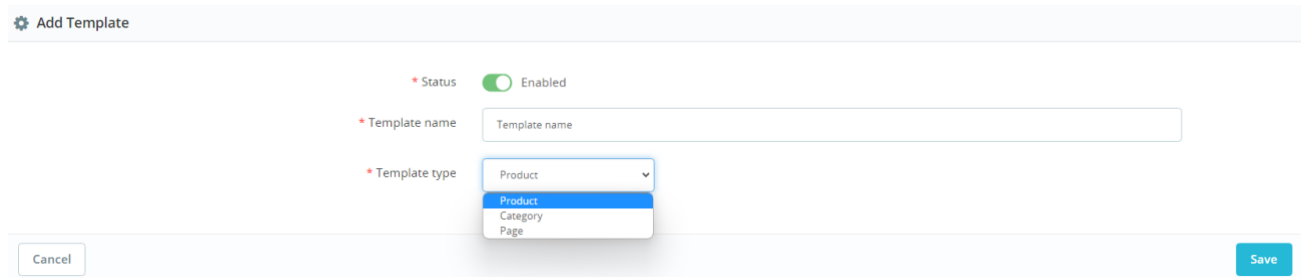

Name	Type	Languages	Status
 No records found			

This table displays the created templates with the ability to edit them and create new ones. The number of templates is not limited.

Add Template

Name	Type	Languages	Status
 No records found			

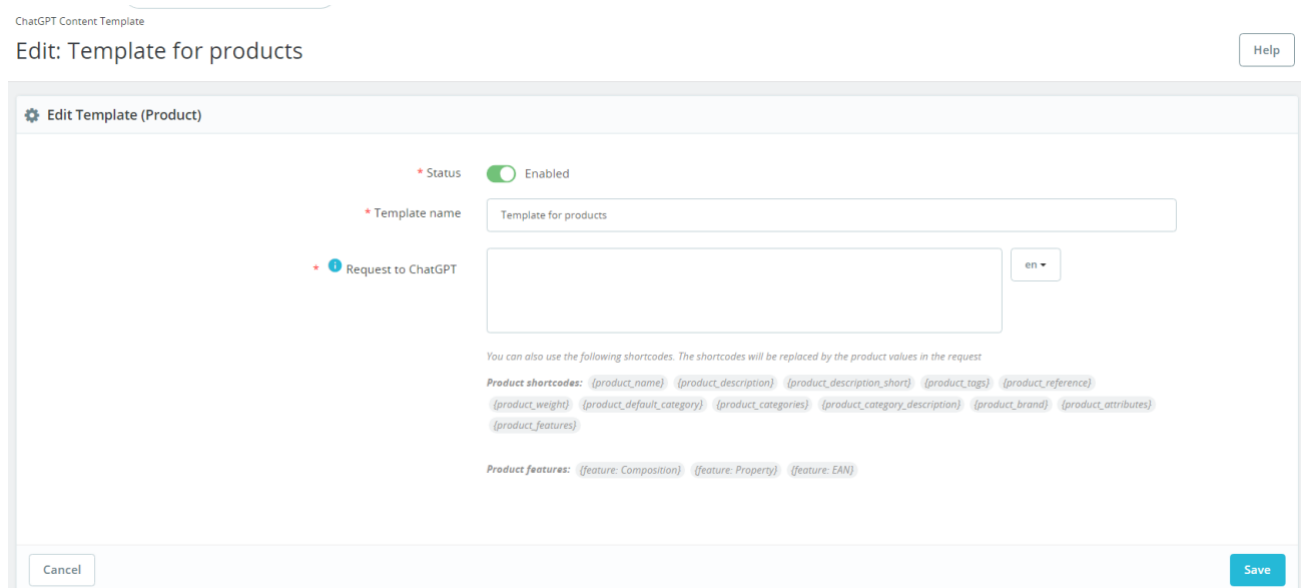

Click the **Add new** button

Add Template fields

- **Status** – status of template Enabled / Disabled
- **Template name** – template name for internal use
- **Template type** – where the template will be used
 - **Product** – product page and products list
 - **Category** – category form and categories list
 - **Page** – cms page

After saving the settings, the template editing page will open.

Edit Template (Product) fields

- **Status** – status of template Enabled/Disabled
- **Template name** – template name for internal use
- **Request to ChatGPT** – template for generating a request to ChatGPT (multilanguage field)
- **Product shortcodes** – available shortcodes which values will be replaced with product ones
 - {product_name} – product name
 - {product_description} – product description
 - {product_description_short} – product summary
 - {product_tags} – product tags
 - {product_reference} – product reference
 - {product_weight} – product weight
 - {product_default_category} – product default category name
 - {product_categories} – names of all product categories
 - {product_category_description} – description of the default product category
 - {product_brand} – product brand
 - {product_attributes} – product attributes

- {product_features} – product features
- **Product features** – specific product feature (each store has its own features defined by admin)

Edit Template (Category)

* Status Enabled

* Template name

* Request to ChatGPT

You can also use the following shortcodes. The shortcodes will be replaced by the category values in the request

Category shortcodes: {category_name} {category_description}

Edit Template (Category) fields

- **Status** – status of template Enabled/Disabled
- **Template name** – template name for internal use
- **Request to ChatGPT** – template for generating a request to ChatGPT (multilanguage field)
- **Category shortcodes** – available shortcodes which values will be replaced with category ones
 - {category_name} – category name
 - {category_description} – category description

Edit Template (Page)

* Status Enabled

* Template name

* Request to ChatGPT

You can also use the following shortcodes. The shortcodes will be replaced by the cms values in the request

CMS shortcodes: {page_name} {page_content}

Edit Template (Page) fields

- **Status** – status of template Enabled/Disabled
- **Template name** – template name for internal use
- **Request to ChatGPT** – template for generating a request to ChatGPT, multilanguage field
- **Category shortcodes** – available shortcodes which values will be replaced with page ones
 - {page_name} – page title
 - {page_content} – page content

Summary

A white ceramic mug with a capacity of 325ml.

Translate Rewrite 45 of 800 characters allowed

Description

This personalized mug is the ideal way to add a personal touch to any morning routine. It is made from high-quality materials and its handle provides extra comfort and a perfect fit for your hand size and shape. The white colour ensures that any design you choose stands out in style and with its large capacity and modern look, this mug can accommodate any simple text or intricate design. It has a glossy finish on both sides, so you can easily write on it with markers or paint pens without smudging or fading away over time. Additionally, it comes with an adjustable lid to keep your drink warm for extended periods of time, making it easy to wrap up business meetings quickly. The glass construction adds extra durability while still being lightweight and the strong handle ensures that you can carry it around without fear of dropping or spilling its contents. In conclusion, this customizable mug stands out from other mugs due to its attractive design, practical features, and long-lasting reliability and convenience in everyday use!

Description

Cette tasse personnalisée est le moyen idéal pour ajouter une touche personnelle à toute routine matinale. Il est fait de matériaux de haute qualité et sa poignée offre un confort supplémentaire et un ajustement parfait à la taille et à la forme de votre main. La couleur blanche garantit que tout design que vous choisissez se démarque avec style et avec sa grande capacité et son look moderne, cette tasse peut accueillir n'importe quel texte simple ou design complexe. Il a une finition brillante des deux côtés, de sorte que vous pouvez facilement l'écrire avec des marqueurs ou des stylos à peinture sans bavures ou s'estomper avec le temps. De plus, il est livré avec un couvercle réglable pour garder votre boisson chaude pendant de longues périodes, ce qui facilite la clôture rapide des réunions d'affaires. La construction en verre ajoute une durabilité supplémentaire tout en restant léger et la poignée robuste garantit que vous pouvez le transporter sans crainte de le laisser tomber ou de renverser son contenu. En conclusion, cette tasse personnalisable se démarque des autres tasses grâce à son design attrayant, ses fonctionnalités pratiques et sa fiabilité et sa commodité à long terme dans l'utilisation quotidienne !

Description

Diese personalisierte Tasse ist der ideale Weg, um jeder Morgenroutine eine persönliche Note zu verleihen. Es besteht aus hochwertigen Materialien und der Griff bietet zusätzlichen Komfort und eine perfekte Passform für Ihre Handgröße und -form. Die weiße Farbe sorgt dafür, dass jedes Design, das Sie wählen, im Still hervorsticht und mit seiner großen Kapazität und dem modernen Look kann diese Tasse jeden einfachen Text oder aufwendiges Design aufnehmen. Sie hat ein glänzendes Finish auf beiden Seiten, so dass Sie es leicht mit Markern oder Malstiften beschriften können, ohne dass es über die Zeit verbleicht oder verblasst. Darüber hinaus kommt es mit einem verstellbaren Deckel, um Ihren Drink über längere Zeit warm zu halten, so dass Sie Geschäftstreffen schnell abschließen können. Die Glas-Konstruktion sorgt für zusätzliche Haltbarkeit, ist aber trotzdem leicht und der starke Griff sorgt dafür, dass Sie sie ohne Angst vor dem Herunterfallen oder Verschütten ihres Inhalts tragen können. Zusammenfassend hebt sich diese anpassbare Tasse von anderen Tassen durch ihr attraktives Design, ihre praktischen Funktionen und ihre langlebige Zuverlässigkeit und Bequemlichkeit im täglichen Gebrauch hervor!

Shipments and returns

Your pack shipment

Packages are generally dispatched within 2 days after receipt of payment and are shipped via UPS with tracking and drop-off without signature. If you prefer delivery by UPS Extra with required signature, an additional cost will be applied, so please contact us before choosing this method. Whichever shipment choice you make, we will provide you with a link to track your package online.

Shipping fees include handling and packing fees as well as postage costs. Handling fees are fixed, whereas transport fees vary according to total weight of the shipment. We advise you to group your items in one order. We cannot group two distinct orders placed separately, and shipping fees will apply to each of them. Your package will be dispatched at your own risk, but special care is taken to protect fragile objects.

Boxes are amply sized and your items are well-protected.

- **Maximum number of words** – maximum number of words to generate text
- **Languages** – languages for which page content will be generated

Translation settings

Translate from:

Select one

- English (English)
- English GB (English)
- Română (Romanian)
- Português PT (Portuguese)
- Polski (Polish)
- Українська (Ukrainian)
- Français (French)
- Deutsch (German)

Translate to:

Select all

- English GB (English)
- Română (Romanian)
- Português PT (Portuguese)
- Polski (Polish)
- Українська (Ukrainian)
- Français (French)
- Deutsch (German)
- Latviešu valoda (Latvian)

Translate functionality

- **Translate from** – the initial language from which the text will be translated. Only one language can be selected
- **Translate to** – languages into which the text will be translated. You can choose several languages

After the page content generation process is completed, the text is automatically placed in the content field.

Installation:

- Upload the module through the Backoffice (Modules > Add New Module)
- Hit Install it and enter the configuration
