## 1. Compatibility

PrestaShop 8.x

## 2. Goal

Transforms your store into "Amazon" - a marketplace with multiple sellers and their shops. Vendors can sell products and manage orders. Admin controls vendors and charges them fees. Powerful options for carriers, subscriptions, product import etc

## 3. Admin opportunities

- Merchant (admin) can easily create a marketplace from his store by adding new multiple sellers
- Admin can manage all sellers (block, edit etc)
- All seller's products would not be any longer available on the site if admin blocks this seller's account
- Admin can manage the products of sellers
- Admin can create own products and sell them
- Admin can determine whether it is necessary to activate a new seller account manually or automatically
- Admin can view the seller's orders
- Admin can charge a commission from sellers (vendors)

## 4. Sellers' opportunities

- Sellers can manage their accounts and stores (edit personal data, edit the descriptions and address of their stores, images, etc.)
- Sellers can manage their orders (view, change status, answer customer questions)
- Sellers can add an unlimited number of products
- Sellers can add/edit product data in different languages (depending on Prestashop settings)
- Sellers can clone their existing products
- Sellers can add/edit/delete product combinations
- Sellers can specify delivery methods for the products
- Sellers can create virtual goods

## 5. Customer opportunities

- Customer has an opportunity to view products from several sellers while staying on one site without looking for other offers throughout of Internet
- Customer can create an order with products from several sellers simultaneously (add the different seller's products to the cart and proceed with the order)
- Customer will receive separate orders if he buys the products from several sellers
- Customer can view information about the seller on the products page
- Customer can contact the seller
- Customer can view the status of order processing by the seller

## 6. Account connection

To start working with the module, you need to link it to your account registered on **Prestashop Addons** <https://addons.prestashop.com>

The **"Link"** button opens a window where you need to log in and confirm the store's connection with your account.

You need to confirm access to the store data after connecting to the account and click the **"Accept and associate"** button to do this.

The data types used by this module will be listed in the pop-up window.

**Configure**  
Agile Multi Vendor Marketplace

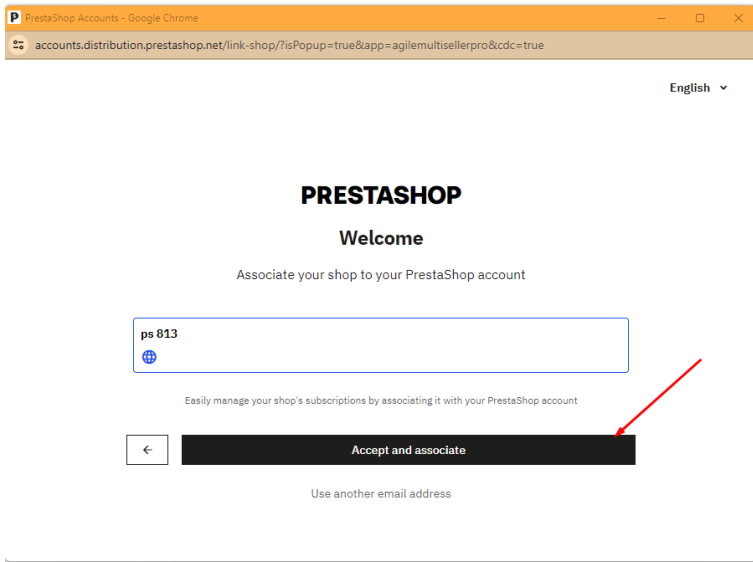

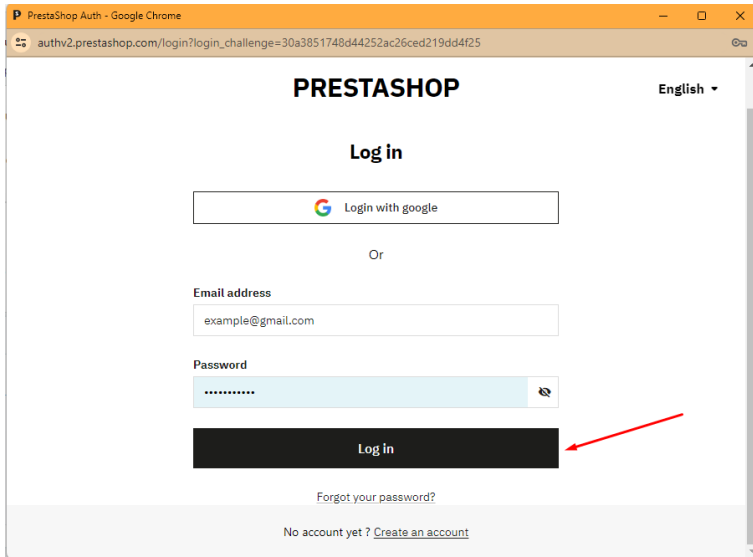

Steps to get started:  
1. Associate your shop with a PrestaShop account - click "Link"  
2. Data Sharing is enabled - click "Share my data"  
3. Agile Multi Vendor Marketplace - click "Choose plan"

**Link your store to a PrestaShop account**  
You can only link your store to one account. [Link](#)

**Share your data with Agile Multi Vendor Marketplace**  
Agile Multi Vendor Marketplace requires you to share your store data to work, please consent to the Data Sharing. [Share my data](#)

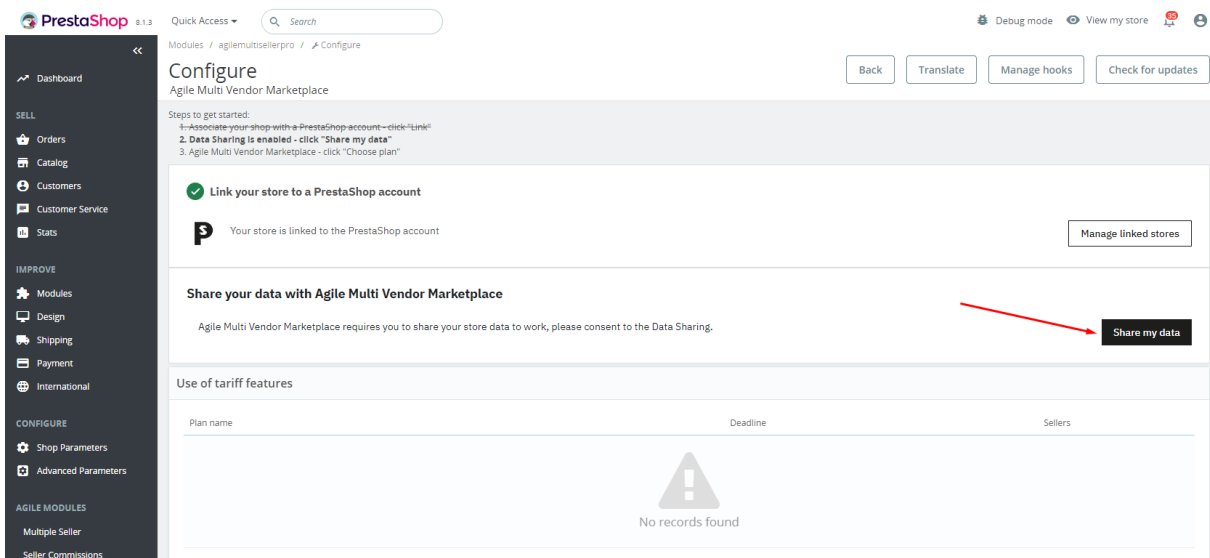

**Use of tariff features**

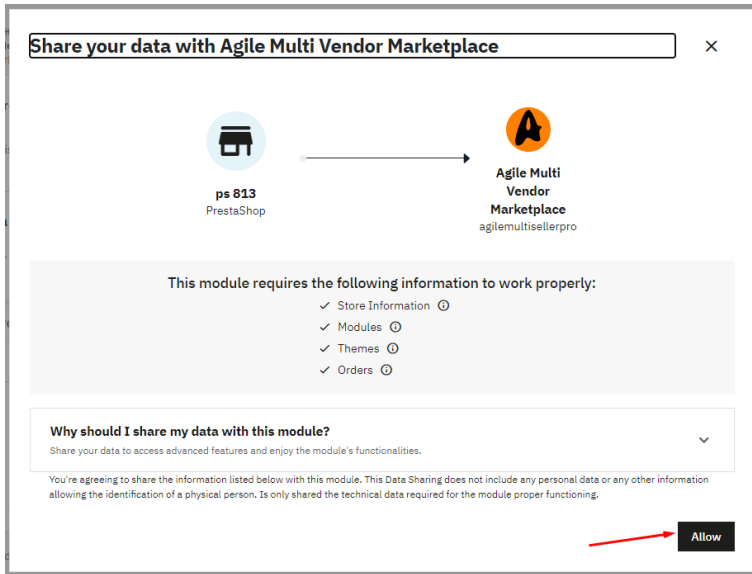

| Plan name        | Deadline | Sellers |
|------------------|----------|---------|
| No records found |          |         |

### 6.1. Data Sharing.

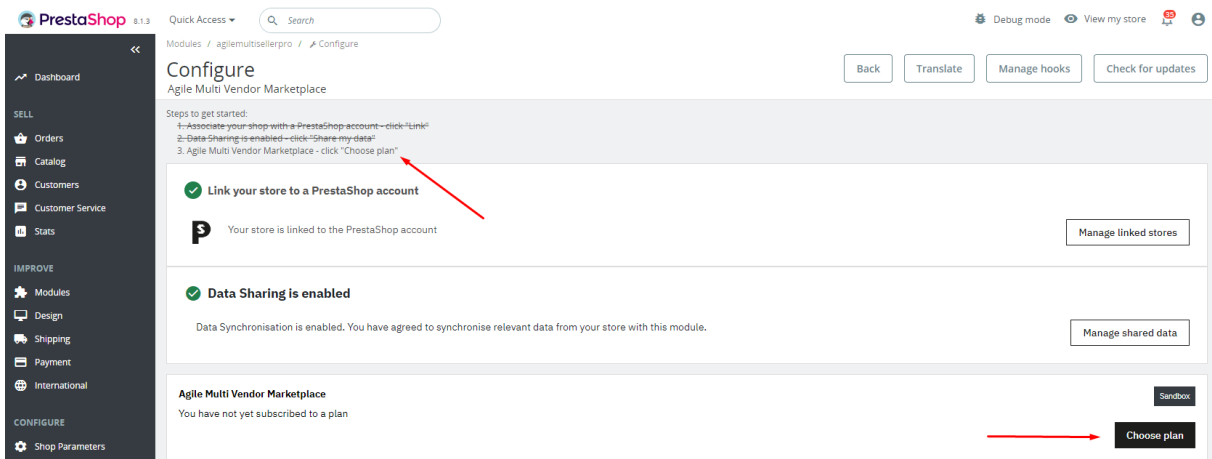

Allow data exchange between the module and your store:

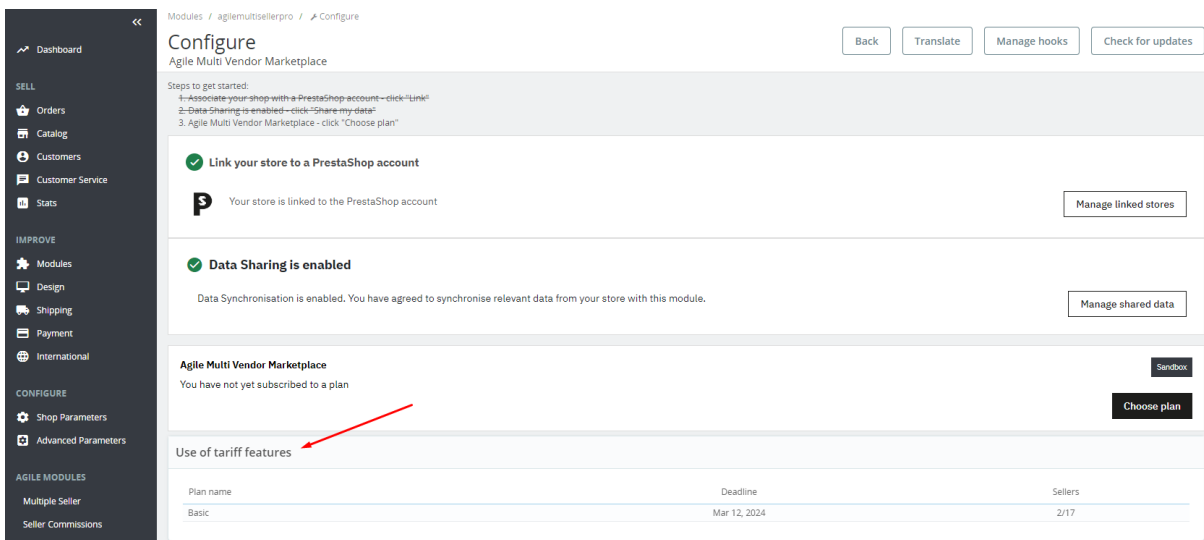

## 6.2. Choose plan

You need to choose a subscription plan and activate it to use the module. Click the "Choose plan" button, choose a tariff and pay for it.

## 6.3. Use of tariff features

This table displays usage statistics and tariff plan limits

## 7. Configuration

### 7.1. Settings

- **Seller Terms & Conditions** - CMS page ID for Seller Terms & Conditions
- **Limit product images number** - the maximum number of product images the seller can upload
- **Allow customers to be a seller** - allow customers to sign up for a seller's account and list products
- **Account Approval required** - sellers registering from the front office are required to be approved/activated by Admin.
- **Set a seller as the manufacturer (brand)** - manufacturer (brand) will be shown in the products for visitors
- **Set a seller as the supplier** - the supplier will be shown in the products for admin
- **Apply this category as the default** - If you want to allow sellers to register products at the store Home category
- **Allow seller creation categories** - allow the seller to create a new category
- **"Seller Info" tab** - this box adds a new tab to the product information page in the Front Office (store) for products added by the seller. This new tab displays information about the seller (i.e. address and phone) and the seller's location in the Google Maps.
- **Google Maps** - allow the Seller to indicate the coordinates of the pick-up point on Google Maps.
- **Google Maps API key** - required if the use option "Google Maps" is enabled.

Settings Multiple shop Commissions Membership

Settings

Seller Terms & Conditions   
Please enter the CMS page ID for Seller Terms & Conditions. Enter "0" if there is no Seller Terms & Conditions.

Limit product images number   
Please enter the max number of product images seller can upload, Enter "0" if you do not want to set limit.

Allow customer to be a seller  Yes  
Allow customers to sign up for a seller's account and list products.

Account Approval required  Yes  
Sellers registering from the front office is required to be approved/activated by Admin.

Set a seller as the manufacturer (brand)   
Manufacturer (brand) will be shown in the products for visitors

Set a seller as the supplier   
Supplier will be shown in the products for admin

Apply this category as the default  Yes  
If you want to allow seller to register product at store Home category

Home

Set this category as the default in case the seller has specified an invalid category or empty

Allow seller creation categories  Yes  
Allow the seller to create a new category

"Seller Info" tab  Yes  
Checking this box adds a new tab on the Product Detail page in the Front Office (store), for seller added products. This new tab displays the seller's information (i.e. address and phone number), as well as the seller's location in a Google Maps window if they so choose.

Google Maps  Yes  
Allow the Seller to indicate the coordinates of the pick-up point on Google Maps.

Google Maps API key   
Required if the use option "Google Maps" is enabled.

### 7.2. Multiple shop settings

- **Shop by location level** – choose at which level the geographical position of the seller stores will be determined (country, region, city)

Settings Multiple shop Commissions Membership

Multiple shop settings

Shop by location level

### 7.3. Seller Commission Settings

- **Return commission at** - list of order status that will trigger creating the commission back to the seller (Commission will be created one time only).
- **Create commission at** - list of order status that will trigger returning the commission to the seller (Commission will be returned one time only).

The screenshot shows the PrestaShop Configuration page for Seller Commission Settings. The interface includes a top navigation bar with 'PrestaShop 8.1.3', 'Quick Access', and a search bar. A left sidebar contains navigation menus for 'SELL', 'IMPROVE', and 'CONFIGURE'. The main content area is titled 'Configuration' and has tabs for 'Settings', 'Multiple shop', 'Commissions', and 'Membership'. The 'Commissions' tab is active, displaying the 'Seller Commission Settings' form. This form has two main sections: 'Return commission at' with a dropdown menu containing 'Canceled' and 'Refunded', and 'Create commission at' with a dropdown menu containing 'Payment accepted' and 'Remote payment accepted'. Below each dropdown is a text box for additional order statuses. A 'Save' button is located at the bottom right of the form.

### 7.4. Membership settings

- **Membership status** – activation of the subscription mode (membership)
- **Membership Category** – category for products that activate a subscription
- **Default membership plan** - the default membership plan applied to the new sellers.
- **Order status of membership plan to active it** - the order status you want to set for sellers to activate their purchased membership plan.
- **Days before expiration to send Email** – number of days to send a reminder to the seller about the expiration of membership plan.

The screenshot shows the PrestaShop Configuration page for Membership settings. The interface is similar to the previous screenshot, with the 'Membership' tab active in the 'Configuration' section. The 'Membership settings' form includes a 'Membership status' toggle switch, a 'Membership Category' dropdown menu set to '/Home/Memberships', a 'Default membership plan' dropdown menu set to 'Trial plan', an 'Order status of membership plan to active it' dropdown menu set to 'Awaiting bank wire payment', and a 'Days before expiration to send Email' text input field set to '10'. A 'Save' button is located at the bottom right of the form.

## 8. Seller Business Info

The administrator can see a table with a list of all sellers registered on the site. It is possible to view their data and edit them.

- **ID** - ID of the seller business info
- **Store** - ID of the seller store
- **Company** – seller company name
- **First Name** – seller first name
- **Last Name** – seller last name
- **Email** – seller email
- **Address** – seller address
- **City** – seller city
- **Status** – seller activation status
- **Actions** – clicking on the edit button will open the seller's data edit page

The screenshot shows the PrestaShop 8.1.3 interface. The top navigation bar includes 'PrestaShop 8.1.3', 'Quick Access', and a search bar. The breadcrumb trail is 'Multiple Seller > Seller Business Info'. The main content area is titled 'Seller Business Info' and contains a table with the following data:

| ID | Store | Company      | First Name | Last Name | Email                  | Address | City | Status | Actions |
|----|-------|--------------|------------|-----------|------------------------|---------|------|--------|---------|
| 1  | 2     | Best Company | Jane       | Smith     | janesmith@example.com  | Green   | City | ✗      |         |
| 2  | 3     | Best Company | John       | Doe       | john.doe@mycompany.com | Green   | City | ✓      |         |

The left sidebar is visible, showing various menu items under 'AGILE MODULES', with 'Seller Business Info' highlighted and a red arrow pointing to it.

### 8.1. Seller Info

- **Status** – status of the seller (you can deactivate the seller and then information about him and his products will not be displayed on the site)
- **Front Store Account** - email address that the seller will use to log in to front store (a Front Store Customer account).
- **Shop** – shop name
- **Company** – company name
- **Logo** – logo of the seller
- **Description** – description of the seller
- **Address Line1** – company address 1
- **Address Line2** – company address 2
- **City** – city of the seller
- **Postal Code** – postal code of the seller
- **Country** – country of the seller
- **Phone** – phone of the seller
- **Fax** - fax of the seller

1 < 1 > 1 Viewing 1-16 out of 16 (page 1 / 1) Items per page: 20

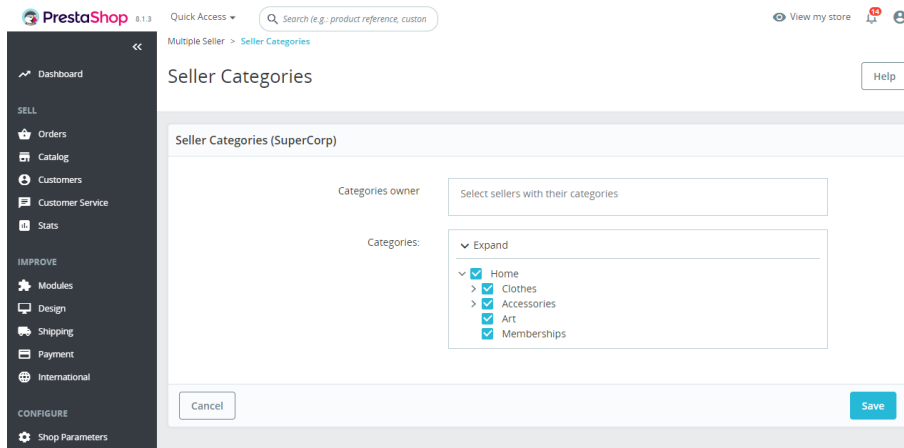

## 10. Seller Categories

- **ID** – seller categories ID
- **Company** – seller company name
- **First Name** – seller first name
- **Last Name** – seller last name
- **Actions** – button that opens the editing page

### 10.1. Seller Categories edit

- **Categories owner** – field to select the sellers to which you want to apply the categories
- **Categories** – tree of categories to assign to sellers

## 11. Seller Ratings

The administrator can see a table with a list of customer reviews of all sellers. It is possible to view and edit each review.

- **ID** – seller ratings ID
- **Seller ID** – seller ID
- **Company** – seller company name
- **Order ID** – current order ID
- **Customer ID** – client ID
- **Rating** – customer rating of order processing
- **Comment** – feedback left by the customer on the order
- **Date** – date and time of comment creation
- **Actions** – buttons to edit and delete customer feedback

The screenshot shows the PrestaShop interface for viewing seller ratings. The page title is 'Seller Ratings' and the breadcrumb is 'Multiple Seller > Seller Ratings'. The main content area is titled 'Seller Ratings (3)'. It features a table with the following columns: ID, Seller ID, Company, Order ID, Customer ID, Rating, Comment, Date, and Actions. The data rows are:

| ID | Seller ID | Company      | Order ID | Customer ID | Rating | Comment                        | Date                | Actions |
|----|-----------|--------------|----------|-------------|--------|--------------------------------|---------------------|---------|

### 20.3. Products

The seller can manage his products on this tab: create, edit and delete. Mass actions on products are also available, namely removing and changing the status of products.

- **ID** – product ID
- **Photo** – product photo
- **Name** – product name
- **Category** - product category
- **Price** - product price
- **Qty** – product quantity
- **Active** - product status
- **Date** – product creation date
- **Actions** – delete and copy buttons

The screenshot shows the 'My Seller Account' interface with the 'Products' tab selected. At the top, there are navigation tabs: Summary, Business Info, Products (active), Orders, Shipping, Import, and Feedback. Below the tabs is an 'ADD PRODUCT' button. A table lists two products with columns for ID, Photo, Name, Category, Price, Qty, Active, and Date. The first product has ID 37, name 'Example product one', price €23.00, and quantity 6. The second product has ID 36, name 'Example product two', price €23.00, and quantity 0. An 'EXPORT' button is on the right. At the bottom, there is a 'Bulk Action' dropdown menu.

#### 20.3.1. Adding a new product - required data

- **Status** - product status
- **Name** - product name
- **Reference** - product reference
- **Category** - product category
- **Retail Price** - product price
- **Quantity** - product quantity

The screenshot shows the 'My Seller Account' interface with the 'Products' tab selected. The form is titled 'Product #000000' and 'Adding a new product - other menus will be available once you save the required data'. On the left, there is a sidebar with a 'Required data' tab selected, and other tabs like 'Description and Seo', 'Images', 'Features', etc. The main form fields include: Status (Enabled), Name (with an 'EN' button), Reference, Category (Please choose), Retail Price (0 EUR), and Quantity (0). There is a 'SAVE' button at the bottom right and a 'Back to product list' link at the bottom left.

### 20.3.2. Add/edit product - description and seo

- **Short description** - product short description
- **Description** - product description
- **Meta Description** - meta description
- **Meta Title** – meta title
- **Friendly URL** – friendly URL
- **Tags** – product tags
